

HANDHELD DEPOSITORS

Type 'K' Pancake Dispenser • Donut Depositor •
Hushpuppy Depositor • Type 'G' Batter Boy

Belshaw's line of Type 'K' depositors offer a simple, efficient method for accurately dispensing a variety of mixes and ingredients. Type 'K' depositors save money through labor efficiency and accurate portion control.

Each Type 'K' depositor features 6 to 8 calibrated volume settings located on the handle, allowing instant accessibility to assure exact portion control. An identically shaped product is easily delivered - time after time.

Belshaw's Type 'K' depositors are designed to be mastered by the novice in minutes. Operation is easily accomplished with no waste or drips.

Hopper size is generous, allowing 44 typical (2oz/59g) portions in the case of pancake and donut depositors. Each hopper and handle is constructed of aluminum to reduce weight. Each plunger and cylinder is constructed of stainless steel to assure durability. The entire unit is corrosion resistant and easy to clean.

Belshaw's Type 'K' series of depositors includes:

- ★ **Type K Pancake Dispenser** - for repeated identical deposits of pancakes and waffle batter.
- ★ **Type K Donut Depositor** - forms plain, star or french cake donuts. With the addition of 3 small attachments, makes crescent, ball and nugget shaped donuts. Type K Minidonut Depositor forms miniature donuts.
- ★ **Type K Hushpuppy Depositor** - forms two perfectly shaped hushpuppies at a time.
- ★ **Type G 'Batter Boy' Cupcake Depositor** - deposits clean identical cupcakes from a one gallon (5 liter) durable container that can hold up to 8 dozen.

Features

- Construction: Hoppers are aluminum (except for Condiment Dispenser - stainless steel). Plungers and cylinders are stainless steel. Weight dials are stainless steel, aluminum and celcon plastic.
- All models are NSF listed for sanitation.
- Standard Type 'K' Donut Depositor is supplied with 1-9/16" Plain plunger. Star and French Cake plungers are optional and interchangeable with the standard plunger.
- A Type 'K' Donut Depositor can be specified with a 1-7/16" plain plunger (1-7/16" Star and French Cake plungers are also available).
- Type 'K' Donut Depositor accepts Dunkerette (forms 2 crescent shaped donuts per plunger stroke), Nugget (forms 3 egg shaped donuts joined in triangle) and Ball (4 balls joined in square) attachments. See plunger section of the Belshaw Donut, Bakery & Foodservice Equipment Guide for more about plungers, attachments, and cake donut varieties.
- Standard Type 'K' Donut Depositor can double as a pancake depositor by inserting a pancake plunger. However, the Type K Pancake Depositor will not accept donut plungers.
- Minidonut Type 'K' Depositor uses different hopper and a 1" single plunger. Components are not interchangeable with the Standard Type K Donut Depositor.
